PROJECTS

Job Sync (04/2025 - 05/2025)

- Built a Job Portal web application , enabling employers to post job listings and manage applications, while allowing users to search for jobs based on skills, apply directly, and track their application status. Integrated secure authentication for both employers and job seekers, dynamic job search and filtering, and real-time application updates.
- Technologies : MERN Stack .

Movie Review Website (08/2024 - 10/2024)

- Developed a dynamic Movie website that allows users to browse movies, authenticate their accounts, manage their favorite movies, and engage with other users through comments.
- Technologies : JavaScript , React , MUI and Tailwind CSS for styling & Firebase as database .

VidNest (02/2025 - 04/2025)

- Developed a responsive Video Library web application where users can browse and watch videos uploaded by admins, like videos, add them to a personal watchlist, and search content by category. Implemented secure user authentication, real-time updates for likes and watchlists, and optimized search functionality.
- Technologies : MERN Stack with TypeScript , Bootstrap for styling , Redux for state management.
